

CSI LITERACY CLOUD PRIVACY POLICY

This policy statement sets forth information practices concerning the type of data that is collected at csi-literacy-cloud.com (CSI Literacy Cloud). This policy applies to our online practices only.

User Supplied Information

Teachers or other school staff may be asked to supply contact information in order to receive teacher or school account login details. CSI Literacy uses your contact information to create your account and send you your welcome email. CSI Literacy will not share information about our users with business partners and/or other third parties.

Student Information

Teachers will be required to create unique usernames and passwords for their own students. CSI Literacy Cloud collects a small amount of personal information from students, including (but not limited to) the user's name, the school they attend, their class's name, and their teacher's name. This information is used to identify the student, allowing them to log in, undertake activities, review their work, and share this work with their teacher. Students also answer questions while undertaking learning activities, which may result in them disclosing personal information. This work is shared with their teacher.

The operators of CSI Literacy Cloud do not make use of any information collected from students (be this personal or otherwise) except for the purposes of facilitating standard website operation (which requires students who are logged in to the site to be monitored for proper operation of the site), identifying and fixing bugs that a student may have encountered, and assisting a particular student's teacher in their work.

No information is passed to any third party, except where required by law. No personal information is made publicly available. The operators of CSI Literacy Cloud use industry-standard practices to maintain the confidentiality, security, and integrity of all information collected from children, and take all reasonable steps to release such information only to parties capable of maintaining its confidentiality and security. The operators of CSI Literacy Cloud retain personal information only as long as is necessary to fulfill the purpose for which it was collected – all personal information is deleted at the completion of a student's participation in CSI Literacy Cloud activities, using reasonable measures to protect against its unauthorized access or use.

Use of Cookies

CSI Literacy Cloud uses cookies to control the login process, and ensure that the site functions correctly for users.

Access to Information

If a school or teacher wishes to access, remove, or correct any personal/identifying information that has been supplied to CSI Literacy, please contact us at info@csi-literacy.com.

Parents can review or have deleted their children's personal information, and refuse to permit its further collection or use. To do this, please contact us at info@csi-literacy.com.

Security of Data

CSI Literacy has put in place commercially reasonable and appropriate physical, electronic, and managerial procedures to safeguard and secure the information we collect online.

Redress

If for some reason you believe that CSI Literacy has not adhered to its privacy policy, please contact us at info@csi-literacy.com.

Your Acceptance of These Terms

By using CSI Literacy Cloud, you signify your assent to this policy statement regarding online privacy. If you have any questions about this policy statement, the practices of CSI Literacy Cloud, or your dealings with CSI Literacy, you may contact us at info@csi-literacy.com.
